REDMINUT, A NEW WAY OF SCIENTIFIC PETS FEEDING

redminut

WHO WE ARE

COMPANY PROFILE

Foshan Square Intelligent Technology Co., Ltd. is a company focusing on the original product development, manufacturing and sales of pet products. The core team is composed of industrial design members with innovative thinking and development capabilities. The members of the core team have development and design experience exceeding ten years. The team has won more than 60 international awards since its creation.

FOCUS ON ORIGINAL DEVELOPMENT OF PET PRODUCTS

60+
AWARDS

WHO WE ARE

BRAND INTRODUCTION

The REDMINUT brand was established in 2017, focusing on innovative design in the pet product industry. Committed to creating a trendy pet brand for young adults, it aims to document the life stories of users and their pets, leaving beautiful memories while enhancing their quality of life through design innovation. By improving the convenience of pet care, the brand promotes deeper emotional connections between owners and their pets.

Currently, the product line is planned around two major pet groups: cats and dogs. With pet supplies and electronics as the core, it covers feeding, watering, cleaning, and other functional categories. Products are also categorized into usage scenarios, including indoor, outdoor, business trips, and travel, tailored to Chinese users' habits.

Adhering to the philosophy of "high-tech innovation and international-standard operations," REDMINUT products feature stylish designs, excellent user experiences, and superior performance. The team has extensive experience in online operations and actively participates in domestic and international exhibitions offline. By incorporating advanced foreign technologies and user feedback, the brand continues to innovate, demonstrating promising market potential.

LQ-HG001

PET DRYING BOX

LQ-HG001

MAIN FEATURE

① Six - sided surrounding air for synchronous full - body drying;

② Digital control heating and intelligent constant temperature;

③ Fresh live air for healthy drying;

④ Six - fold safety protection to safeguard your beloved pets;

⑤ Low - noise operation at 35dB, no need to be afraid;

⑥ 62L capacity, enough space for multiple cats, allowing them to lie down and get dried；

⑦ UVC sterilization and odor removal for worry - free long - term use；

⑧ Negative ions with the wind, combining drying and nourishing.

PET DRYING BOX

LQ-HG001

SPECIFICATIONS

Product name: Pet drying box

Product number: LQ-HG001

product material: ABS+Tempered glass

Product Size: 43x46x47 (cm) (width x depth x height)

Packing size: 55x52x52(cm)

**Product volume:** 62L

Net weight: 7.85kg

Gross weight: 9.85kg

Product color: White

Rated voltage: 220V

Frequency frequency: 50HZ

Rated power: 1000W

Operating temperature: 22-45℃

PET WATER FOUNTAIN

YL-02

MAIN FEATURE

① The water dispenser has no built-in power supply and does not need to be plugged in;

② It truly separates water and electricity;

③ The original split-type water pump has a water wheel and blade diameter of 60mm;

④ The parts can be disassembled and cleaned easily, with no dead corners;

⑤ There are 3 water outlet modes (timed/radar sensor/intermittent continuous water outlet);

⑥ The lithium battery has a capacity of 7500mAh, providing up to 45 days of long-lasting power;

⑦ The large capacity is 2.5L, with a visible water level and a clear view of the remaining water;

⑧ The noise level is like that of a bedroom, with a working noise level as low as 30dB;

⑨ The food-grade PC material and 304 stainless steel drinking tray.

180° **Radar sensor effluent mode**

The device automatically outputs water when a pet approaches, and enters a dormant state for 15 seconds after each sensor-initiated water output.
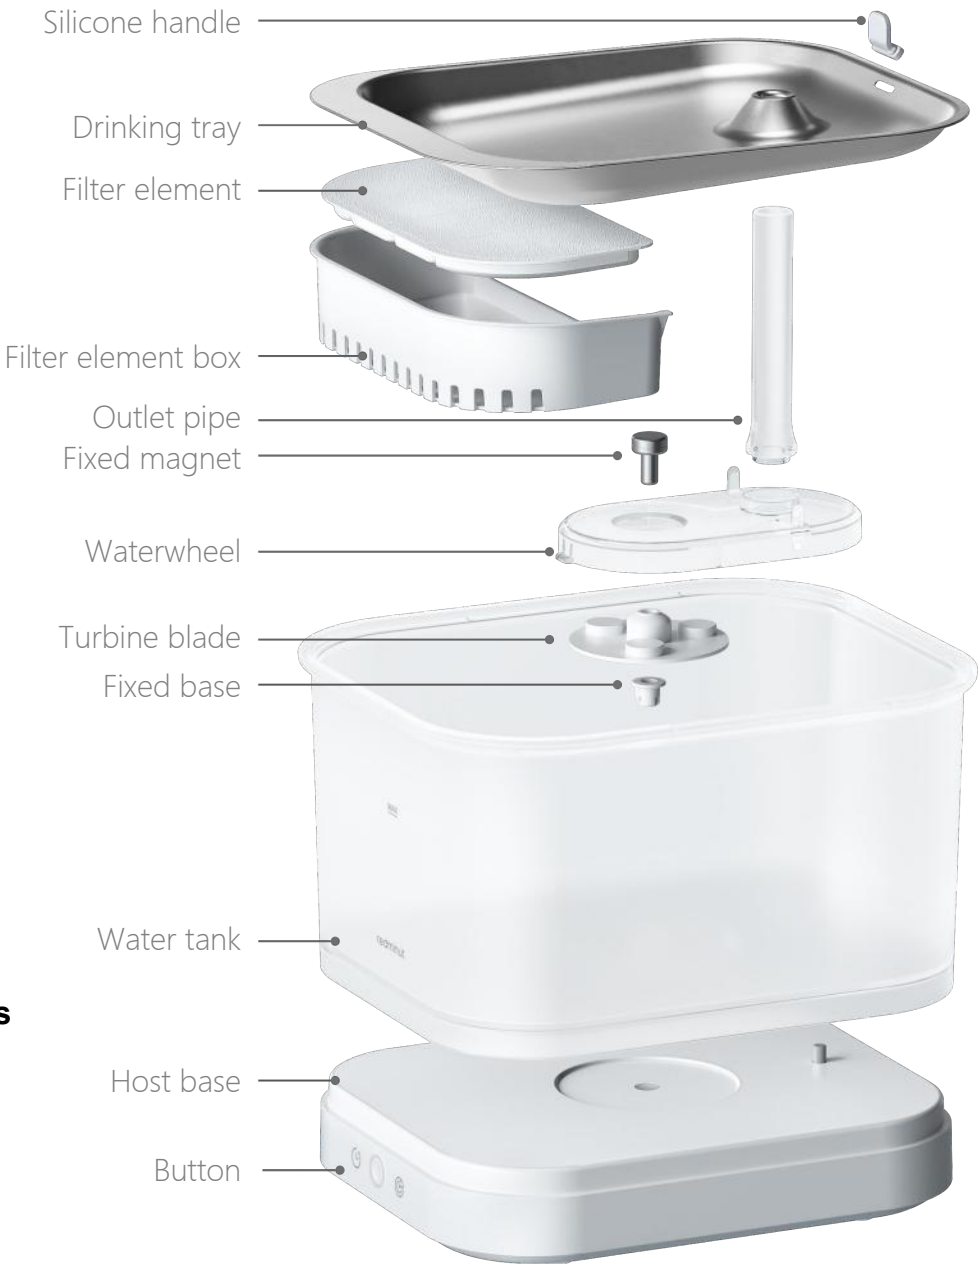

Timed effluent mode

The device outputs water once every 15 minutes and then enters a dormant state for 15 minutes after each water output.

Intermittent Continuous Water Output Mode

The device intermittently outputs water continuously (this mode is only supported when the device is plugged in).

PET WATER FOUNTAIN

YL-02

3 The waterwheel drives a strong water flow out through the water outlet.

4 After reaching the water storage dish, it slowly flows down along the water tank wall, filtered by the filter element to remove impurities, and then returns to the water tank for continuous circulation.

2 The split water pump is isolated, and the waterwheel inside the water tank rotates quickly due to the magnetic buoyancy of the bottom host.

1 The bottom host is wirelessly powered, with a dry and wet split design, and the power supply system is completely isolated from the water.

EASY TO WASH

All parts of the waterwheel can be disassembled, and all parts that come into contact with water can be washed with hot water or placed in a dishwasher for cleaning.

2.5L LARGE CAPACITY

Transparent cover for visual water level monitoring, easy to see the remaining water quantity.

2500ml ≈ 5 bottles of 500ml mineral water

SPLIT-TYPE WATER PUMP

Waterwheel diameter 60mm, effectively preventing blockage of foreign objectsand solving the problems of difficult cleaning of wireless pumps or inability to clean vacuum pumps.

30dB QUIET OPERATION

The water flow wall slow-flow structure. Uses a DC brushless motor, also durable for long-time water output.
